

DATASHEET: CLY 589 012

NOAH Arc Flash Clothing Kit

Clydesdale's NOAH arc-flash protective kits offer a complete solution to protecting electrical workers in contact with electrical apparatus that pose an arc flash risk.

The key elements are the NOAH arc flash protective garments, the AS1200CE helmet and face shield and arc-tested insulated gloves.

NOAH uses a Permanent FR fabric with excellent breathability for comfort when working.

NOAH meets or exceeds all current European standards for arc flash clothing.

Clydesdale's clothing production process is continually assessed under the PPE directive to ensure the garments are of the utmost quality and the wearer can trust their garments to always offer the maximum protection.

The NOAH arc flash kit offers a minimum of 12 cal/cm² protection on all body areas covered using fully CE marked items where relevant.

Kit Components:

Clydesdale NOAH Jacket and Trousers

AS1200 helmet and Visor

AS1200 storage bag
